Program Supports Early-Career Mathematics and Science Teachers for Five Years

Moorestown, N.J., June 30, 2016 – The Knowles Science Teaching Foundation announced its selection of 34 early-career, high school mathematics and science teachers as members of its **2016 Cohort** of KSTF Teaching Fellows. The 2016 Cohort includes seven with advanced degrees in their discipline, two AmeriCorp members, a Peace Corps volunteer, a National Science Foundation Graduate Research Fellow, a National Park Service Park Ranger, a news producer for the Fuji Television Network, and two Engineers Without Borders volunteers. The Foundation provides support and professional development designed specifically for early-career, high school mathematics and science teachers

through its signature program—the KSTF [Teaching Fellows Program](#). With a focus on supporting teacher-led educational improvement in the classroom and beyond, KSTF Teaching Fellows gain access to a comprehensive suite of benefits for five years, including:

summer stipends,

funds for professional development,

grants for teaching materials,

mentoring and support from experienced teachers and teacher educators,

support for teacher leadership activities, and

membership in a community of more than 300 like-minded peers in 40 states.

“Our 2016 Cohort of Teaching Fellows possess the drive, commitment and talent to improve math and science education in their classrooms and beyond,” stated [Nicole Gillespie](#), KSTF Executive Director. “KSTF is committed to providing these beginning teachers with support, resources, and a professional community to help them develop into the kind of teacher that all students deserve.”

“I am excited to be part of a community of dynamic educators who are dedicating themselves to improving STEM education in this country,” said [Jesse Braxton](#), 2016 KSTF Teaching Fellow. “I recognize that I have a great deal to learn in order to become the teacher that I want to be, and am honored to have the support of the KSTF Teaching Fellows Program to develop my ability to lead lessons that go beyond content coverage and provide students with opportunities to think deeply, make sense of the world around them, and act powerfully to pursue their goals in life.

Applications for 2017 KSTF Teaching Fellowships are due by 11:59 pm PST on November 27, 2016. Please visit www.kstf.org/fellowships to learn more about the

Fellowship.
